ABOUT ME

My name is Saint Moses Agbukor I am from Edo state Nigeria. I am a software developer that has strong passion for technology and a different kind of mindset from others. I am currently working as a freelance you with over 2 years of software development.
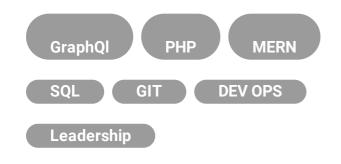

WORK EXPERIENCE

Edo innovates

Mid level | Backend Developer Intern
Benin , Nigeria
2021-12-01 | 2022-09-01

I was the backend developer for there Real world Apis and applications. Where i tested, structured, design, and deployed there Apis, I grew from being an intern in to a midlevel backend developer because of my tech start and expreriencewith GraphQl and SQL Solid exprerience with PhP and aws services.

Apprize Groups

Mid level | Backend developer
Benin , Nigeria
2020-12-01 | 2022-05-01

I was the backend developer who maintained the backend structure of the e-commerce application running tests and keeping up performance using with PHP and SQL. I also developed some WordPress themes and plugins that were also used. Apprize also had good SEO.i also maintained database queries and a standard of good development practice.
